

Advanced Trauma Life Support Course

May 18 and 19, 2010

(reduced fee in combination with ESTES congress)

Content

The ATLS® course was developed by the American College of Surgeons (ACS) more than 25 years ago and has now been adopted in over 40 countries worldwide. It teaches a simple systematic approach to the management of trauma patients, treating the most life-threatening injury within “the first critical hour”...

Format

- Highly interactive course combining lectures, discussions, interactive tutorials, skills teaching and simulated patient management scenarios (moulage).
- There is continual assessment throughout the course.
- Candidates must complete a pre-course MCQ

Duration, location and language

This English spoken ATLS course contains 2 days: May 18 and 19, 2010 and will be held at the Louvain/Leuven University Hospital, a 30 minutes drive from the congress venue.

Key benefits

A multidisciplinary course enabling a standardised language of trauma care across the specialties. Attendance at a course also exposes the 16 candidates to an international network of motivated colleagues and an international faculty of 9 professional instructors with an enthusiasm for trauma management.
